During the 3-1/2 years of World War 2 that started with the Japanese bombing of Pearl Harbor in December 1941 and ended with the Surrender of Germany and Japan in 1945, "We the People of the U.S.A." produced the following:

22 aircraft carriers,  
8 battleships,  
48 cruisers,  
349 destroyers,  
420 destroyer escorts,  
203 submarines,  
34 million tons of merchant ships,  
100,000 fighter aircraft,  
98,000 bombers,  
24,000 transport aircraft,  
58,000 training aircraft,  
93,000 tanks,  
257,000 artillery pieces,  
105,000 mortars,  
3,000,000 machine guns, and  
2,500,000 military trucks.

We put 16.1 million men in uniform in the various armed services, invaded Africa, invaded Sicily and Italy, won the battle for the Atlantic, planned and executed D-Day, marched across the Pacific and Europe, developed the atomic bomb, and ultimately conquered Japan and Germany.

It's worth noting, that during the almost exact amount of time, the Obama Administration couldn't even build a web site that worked

### REFLECTIONS

#### COINS LEFT ON TOMBSTONES

While visiting some cemeteries you may notice that headstones marking certain graves have coins on them, left by previous visitors to the grave....

These coins have distinct meanings when left on the headstones of those who gave their life while serving in America's military, and these meanings vary depending on the denomination of coin.

A coin left on a headstone or at the grave site is meant as a message to the deceased soldier's family that someone else has visited the grave to pay respect. Leaving a penny at the grave means simply that you visited.

A nickel indicates that you and the deceased trained at boot camp together, while a dime means you served with him in some capacity. By leaving a quarter at the grave, you are telling the family that you were with the soldier when he was killed.

According to tradition, the money left at graves in national cemeteries and state veterans cemeteries is eventually collected, and the funds are put toward maintaining the cemetery or paying burial costs for indigent veterans.

In the US, this practice became common during the Vietnam war, due to the political divide in the country over the war; leaving a coin was seen as a more practical way to communicate that you had visited the grave than contacting the soldier's family, which could devolve into an uncomfortable argument over politics relating to the war.

Some Vietnam veterans would leave coins as a "down payment" to buy their fallen comrades a beer or play a hand of cards when they would finally be reunited.

The tradition of leaving coins on the headstones of military men and women can be traced to as far back as the Roman Empire.

### **PUZZLES BY NICK**

**After  $\frac{1}{8}$  of a ribbon is thrown away, the remaining part is cut into two pieces whose lengths are in the ratio of 4::5. If 9 inches of the original ribbon was thrown away, how long is the shorter piece of ribbon left?**

**In a certain class, exactly  $\frac{2}{3}$  of the students applied for admission to a four year college, and of these,  $\frac{1}{8}$  applied also to a two year junior college. If more than one student applied to both the 4-year college and the 2-year college, what is the LEAST number of students who could be in the class?**

**Ed and Linda met on a singles cruise. Ed fell head over heels for her.**

**When they discovered they lived in the same city, only a few miles apart, Ed was ecstatic. He immediately started asking her out when they got home. Within a couple of weeks, Ed had taken Linda to dance clubs, restaurants, concerts, movies, and museums. Ed became convinced that Linda was indeed his soul mate and true love.**

**Every date seemed better than the last. On the one-month anniversary of their first dinner on the cruise ship, Ed took Linda to a fine restaurant.**

While having cocktails and waiting for their salad, Ed said, "I guess you can tell I'm very much in love with you. I'd like a little serious talk before our relationship continues. So, before I get a box out of my jacket and ask you a life changing question, it's only fair to warn you, I'm a total golf nut. I play golf, I read about golf, I watch golf on TV.

In short, I eat, sleep, and breathe golf. If that's going to be a problem for us, you'd better say so now!"

Linda paused- responded, "Ed, that certainly won't be a problem. I love you as you are and I love golf too; but, since we're being totally honest with each other, you need to know that for the last five years I've been a hooker." Ed replied, "I bet it's because you're not keeping your wrists straight when you hit the ball."
