## COUNCIL 9058 NEWSLETTER

### Grand Knight's Report

The Grand Knight began by thanking all the brothers for their thoughts and prayers during his back surgery. The monthly Planning meetings are ongoing and continue to provide essential planning for our various committees. Out of that meeting, we have formed a Dinner Committee that will meet just prior to the Planning meeting. All are encouraged to attend and provide ideas, thoughts or suggestions. The Dinner Committee goals are to better understand the meals and the tasks involved and to provide solutions to better execute. At the upcoming dinner on January 12<sup>th</sup>, a few new ideas will be presented.

The proposed budget was sent out via email in December. Because our funds are very low, the budget will be managed more closely. This means that anything requested [under New Business], if it was previously approved in the budget, it will be approved as such. If the money requested is not previously allocated within the budget, the request will be sent to the Financial Committee (Treasurer, Financial Secretary, Grand Knight, Deputy Grand Knight) and held until additional funds are acquired and allocated. Once these funds are acquired, the request will be brought back to the council for a final vote and approval. This will be further discussed under New Business.

He then presented the Knight of the Month to Jim Carey. Jim exemplifies the principles of Charity and Unity within our council. As the Director of St Anne's food pantry, Jim provides a tremendous benefit to our Parish and the community. Jim is always available to his fellow Knights to help with food preparation for the various dinners hosted by the council. Thank you for a job well done.

### Business Meeting Minutes

The council's last business meeting was held on January 7<sup>th</sup>. Minutes from the meeting can be found on our Council Website in the Members Only section. A link to the member section can be found [here](#).

## Puzzles by the Social Media Committee

1. There are three switches downstairs. Each corresponds to one of the three light bulbs in the attic. You can turn the switches on and off and leave them in any position. How would you identify which switch corresponds to which light bulb, if you are only allowed one trip upstairs?
2. Your last good ping-pong ball fell down into a narrow metal pipe imbedded in concrete one foot deep. How can you get it out undamaged, if all the tools you have are your tennis paddle, your shoe-laces, and your plastic water bottle, which does not fit into the pipe?
3. A Petri dish hosts a healthy colony of bacteria. Once a minute every bacterium divides into two. The colony was founded by a single cell at noon. At exactly 12:43 (43 minutes later) the Petri dish was half full. At what time will the dish be full?

## On The Lighter Side

A missionary priest works in rural India among the poor. The monsoons come and the Villagers warn him that the river is rising and he must come with them to the shelters in the hills, but the missionary refuses to go, saying “God will rescue me so that you may have faith.” The river keeps rising, the priest climbs on a local roof to stay dry and a rescue boat crew comes, telling him to get in and they will bring him to safety. The priest refuses, saying "God will rescue me so that you may have faith."

The river rises and the priest is perched on the building chimney. A rescue helicopter comes to save him, but he says “God will rescue me so that you may have faith.”

The priest drowns and stands before God at judgement and says “Lord, I don’t understand! I had such faith that you would save me, why am I here so young?”

God says “What? I sent you smart Villagers, a rescue boat and a helicopter. What did you expect, an engraved invitation?”

---

A priest was walking along the corridor of the parochial school near the preschool wing when a group of little ones were trotting by on the way to the cafeteria. One little lad of about three or four stopped and looked at him in his clerical clothes and asked “Why do you dress funny?”

He told him he was a priest and this is the uniform priests wear.

Then the boy pointed to the priest’s plastic collar tab and asked, “Do you have an owie?”

The priest was perplexed until he realized that to him the collar tab looked like a band-aid. So the priest took it out and handed it to the boy to show him. On the back of the tab are raised letters giving the name of the manufacturer.

The little guy felt the letters, and the priest asked, “Do you know what those words say?”

“Yes I do,” said the lad who was not old enough to read. Peering intently at the letters he said, “Kills ticks and fleas up to six months!”

## Trivia Answers

Keep the first bulb switched on for a few minutes. It gets warm, right? So all you have to do then is ... switch it off, switch another one on, walk into the room with bulbs, touch them and tell which one was switched on as the first one (the warm one) and the others can be easily identified.

All the tools are random things that are not going to help you. All you have to do is pour some water into the pipe so that the ball swims up on the surface. And if you say that you don't have any water, then think about what you drank today and if you can use that somehow.

The dish will be full at 12:44
