Deacons Report

Today's society and geopolitical culture is in the process of dividing and conquering the people creating " liberalism" (ie) rights and wrongs determined by individual choices with emphasis on individualism (ie) what is in it for me today. Being self absorbed and relating to political correctness exacerbates their ideologue which is part of the Socialism play book.

It Is imperative to stay bold and courageous while consciously aware of what's happening to you, for you and around you and be discerning and pray for Protection. Amen
