

Hello Bill;

I thought it was time to write a letter to tell you how much our family appreciates the benefits of a Knights of Columbus Long Term Care policy. The payments my mother receives has allowed her family to hire a full time live-in caregiver who provides loving, tender care and companionship to her.

My mother, who is 83, has severe dementia and is quite frail. However, with the coverage she has with the policy, she is able to stay in her own home with the help of a full time live-in caregiver who provides her excellent personalized care and companionship. My mother is content and the quality of her life is 100% better than she would receive in a long term care facility.

In addition, having a live-in caregiver allows her the rest of her family (me - her eldest daughter and my 2 brothers) to have normal lives and relieves us of the huge pressure and responsibility of dealing with a loved one with dementia.

Before we hired the full time caregiver, there was a lot of physical and emotional stress on us. Anyone who has dealt with this situation knows what I am talking about. Thanks to the benefits of her Long Term Care policy, we have been given our lives back and my mother is receiving the loving, personalized care and attention she deserves. We are all much happier and healthier because of it.

Sincerely

Terry W
