

# MISSOURI RESPECT LIFE PROGRAM

## ***KNIGHTS SAVING GODS PLAN***

*Since we have met our 5 year goal of over \$2,000,000 for "Meet Life". We now move into the next phase of our program. As we begin to build an Endowment that will someday fulfill the needs of Meet Life. We have a responsibility as Missouri Knights to continue to support our Respect Life programs. Because we have placed 43 Ultrasound machines across the State our challenge is to maintain those machines and the facilities that support them.*

*The "Respect Life Team" job is to encourage all of you to support our programs. Just because we have exceeded our initial goal on "Meet Life" does not mean we can stop raising funds for the fight against abortion. We also want to encourage each and every one of you to participate in our other Respect Life Programs. By participating you are demonstrating to the world your support for the Sanctity of Life.*

*I would like to introduce our Respect Life team for 2017. Our job this year will be to grow what we have accomplished over the past 5 years. Our mission is to build for future that will protect life from conception to the grave. Our hope is Councils, Auxiliaries and Assemblies will take advantage of these programs. If you need questions answered, a visit from one of our team, or just support for your program please contact one of the following people, we will be glad to assist.*
