

State Council Website www.mokofc.org

My Brother Knights,

I am inspired to again serve as your Website Coordinator for this fraternal year. With the new fraternal year, I am pleased to announce that our website is migrating to a new format on July 1, 2016.

The new website is hosted by **UKnight Interactive**, maintained by the State Council, and designed to inspire!! This move will give the website a crisp modern look, and will be much easier to navigate. It will be formatted similar to what a number of our councils already see today on their own website.

As you navigate the new site, you will find a more visually pleasing home page, new interactive forms, an easier to use events calendar, a Degree Calendar focused on your area, and much more. On day one, some functionality you're used to may not be ready, but know it will be available soon.

If you're council is looking to start up a website, or upgrade an existing site, consider using UKnight Interactive. Many councils have begun using their services, and love it!! To find more information about their services, go to www.kofcknights.org. Also, the company is run by Brother Knights!!

Don't forget that this website can also help you promote your 1st Degree's. If you are hosting a Degree, be sure to send the information to me at webmaster@mokofc.org, and I'll add it to the calendar.

If anyone has any questions or needs help, don't hesitate to e-mail or call me.

Kevin Hudnut - Website Coordinator
