Alcohol and Drug Presence in Fatal Motor Vehicle Crashes

Crashes involving alcohol and/or drugs are the leading criminal cause of death in Canada. On average, approximately 4 people are killed each day in crashes involving alcohol and/or drugs.

In 2012, there were 2,546 crash deaths. Of those, 1,497 deaths, or 58.8%, involved drivers who had some alcohol and/or drug presence in their systems.

476 deaths, or 18.7%, occurred in crashes involving drivers with a positive alcohol reading.

614 deaths, or 24.1%, occurred in crashes involving drivers with a positive drug reading. Cannabis was the drug most frequently found.

407 deaths, or 16%, occurred in crashes involving drivers with positive readings for both alcohol and drugs.

Bearing in mind that from the formation of MADD from 1982 to 2010 there were 43,276 Canadians killed from alcohol related crashes.

Analysis of Canadian lives saved in Canada from 1982 to 2010 due to programs such as MADD is approximately 36,642. That is the approx. population of Prince Albert.

The four principles of the Knights of Columbus are: **charity, unity, fraternity and patriotism.** It is always our passion to provide a safe environment for our community members.

We, the Knights of Columbus, are very proud to partner with the Prince Albert MADD Chapter to raise funds for their many worthwhile projects in and around our communities.

It is our intention to partner with other MADD Chapters in Meadow Lake, Regina and Saskatoon on an annual basis.

Every one of us has been affected by the indiscretions of impaired drivers at one time or another. **This is our time to make a difference to help prevent our family and friends from becoming a statistic.**

Please help to make this a very successful and memorable event for years to come.

This is one event that will change your life for the better and one which you will never forget.
