Alcohol and Drug Presence in Fatal Motor Vehicle Crashes

Crashes involving alcohol and/or drugs are the leading criminal cause of death in Canada. On average, approximately four people are killed each day in crashes involving alcohol and/or drugs.

In 2012, there were 2,546 crash deaths. Of those, 1,497 deaths, or 58.8%, involved drivers who had some alcohol and/or drug presence in their systems.

476 deaths, or 18.7%, occurred in crashes involving drivers with a positive alcohol reading.

614 deaths, or 24.1%, occurred in crashes involving drivers with a positive drug reading. Cannabis was the drug most frequently found.

407 deaths, or 16%, occurred in crashes involving drivers with positive readings for both alcohol and drugs.

According to the MADD Canada website, their programs have saved over 42, 526 estimated lives from drinking drivers from 1982 to 2013. Unfortunately, 45, 394 people have died in that same time. We have more vital work to do.

The four principles of the Knights of Columbus are charity, unity, fraternity and patriotism. It is always our passion to provide a safe environment for our community members.

The Knights of Columbus are very proud to collaborate with the Meadow Lake MADD Chapter to raise funds for their many worthwhile projects in and around our communities.

It is our intention to collaborate with other MADD Chapters in Meadow Lake, Regina and Saskatoon on an annual basis.

The criminal acts of impaired drivers at one time or another has affected every one of us. This is our time to make a difference to help prevent our family and friends from becoming a statistic.

Please help to make this a very successful and memorable event for years to come.

This is one event that will change your life for the better and one that you will never forget.

Agenda for the Day

Golf registration	12:00 pm
