

Worthy brothers,

There is a systematic hacker attempt going on that you need to be aware of, and PLEASE DO NOT REPLY TO IT.

This same thing has been going on for some time now to a number of Councils, but as the State Webmaster, I want to bring it to your attention and assure you that the UKnight system has not been compromised.

Understand in the UKnight email system, your email address is protected and not visible to outsiders.

As an officer or some leader, your name may be listed, often with a photo, but you will see there is a button to "send me an email". At No Time can anyone see your email address.

Clearly in this email below the hacker saw I am the Council FS, but is asking me to reply, and that is the only way they will suddenly get my email. DO NOT REPLY!

It is easy to get a parish name, address, and pastor's name and make it look legitimate like this one to me yesterday.

Both the UKnight team and I are aware of this hacker attempt and ask for your cooperation is letting your members know not to respond.
