- **Words from our Field Agent, Ken Sosnowski!**

***Don't assume you can't afford Disability Income Insurance***

*One of the biggest mistakes you can make regarding disability insurance is to assume you can't afford it or you won't qualify. Before you make that assumption, do some basic research and apply for coverage through the Knights of Columbus. The Order's Income Armor product gives you options that can help you fit this critical protection into your risk management budget. Here are two ways you can reduce your premium:*

***1. Choose a two-year or five-year maximum benefit period.***

*Depending on your age, the best option is probably a policy that pays benefits until you reach age 67. But a two-year or five-year duration benefit period would cover disabilities you might encounter in your working life.*

***2. Choose a longer elimination period.***

*An elimination period is the number of days a total disability must exist before benefits begin to accrue. Typical elimination periods are 30, 90, or 180 days. Choosing a longer elimination period lowers the policy's premium. But be sure you have enough set aside in your contingency fund to account for the longer gap.*

*As your professional Field Agent, risk management is my specialty. Let's talk about how to protect your income, your retirement needs, and your family's financial future.*

*Fraternally, Your dedicated Field Agent,*
